

Direct action training

Training to bring the Zionist machine down brick by brick, wall by wall

We are now in the third year of the uninterrupted campaign of ethnic cleansing and genocide in Gaza, led by Israeli forces with the support and active participation of the UK.

The same empire that authorised the creation of the Israeli state in 1917 is now escalating its crackdown on political dissent against its own citizens and threatening the rights of those who speak out against injustice.

But solidarity with Palestine has only become stronger!

Direct action has proven time and time again to be the most effective route to create the material conditions for the change we want. Direct action is for everyone who is committed to the anticolonial struggle. We cannot allow fear to be a barrier to our solidarity.

This is why we have decided to launch grassroots educational spaces for all.

T Direct Action Training

**If you would like to
gain the skills to
bring the Zionist
machine down brick
by brick, wall by wall,
then register your
interest for these
Direct Action
Trainings!**
